AUDITORS' REPORT

To the Shareholders of
Millstream Mines Ltd.

We have audited the balance sheet of Millstream Mines Ltd. (an exploration stage company) as at August 31, 2006 and 2005 and the statements of operations, retained earnings and cash flows for the year then ended. These financial statements are the responsibility of the company's management. Our responsibility is to express an opinion on these financial statements based on our audit.

We conducted our audit in accordance with Canadian generally accepted auditing standards. Those standards require that we plan and perform an audit to obtain reasonable assurance whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation.

In our opinion, these financial statements present fairly, in all material respects, the financial position of the company as at August 31, 2006 and 2005 and the results of its operations and its cash flows for the year then ended in accordance with Canadian generally accepted accounting principles.

Millstream Mines Ltd.
Notes to Financial Statements
For the Year Ended August 31, 2006 and 2005

1. Summary of significant accounting policies

Nature of operations

The accompanying financial statements have been prepared on the basis of accounting principles applicable to a going concern which presumes the Company will be able to realize its assets and discharge its liabilities in the normal course of business.

The Company is in the process of exploring its resource properties and has not yet determined whether the properties contain economically recoverable reserves. The recovery of the amounts shown for resource properties and the related deferred expenditures is dependent upon the existence of economically recoverable reserves, confirmation of the Company's interest in the underlying mining claims, the ability of the Company to obtain necessary financing to complete the development, future profitable production and the support of the Company's trade creditors.

The financial statements do not give effect to any adjustments to the amount of assets and liabilities that might be necessary should the Company be unable to continue as a going concern and therefore, be required to realize its assets and discharge its liabilities in other than the ordinary course of business.

Mining claims

Mining claims are carried at cost until they are brought into production at which time they are depleted on a unit-of-production basis.

Exploration expenditures relating to mining claims are deferred until the properties are brought into production at which time they are amortized on a unit-of-production basis.

The cost of claims abandoned or sold and the deferred exploration costs relating to claims abandoned or sold are charged to operations in the current year.

Administrative expenses

Administrative expenses are charged to operations in the year incurred.

Oil and gas interests

The Company follows the successful efforts method of accounting for oil and gas interests whereby all costs relating to the acquisition, exploration and development of petroleum and natural gas reserves are capitalized until their economic status has been evaluated.

All costs of successful wells are amortized over their useful lives.

Use of estimates

The preparation of the corporation's financial statements in conformity with Canadian generally accepted accounting principles requires management to make estimates that affect the amounts reported and disclosed in the financial statements. Actual results could differ from those estimates.

Millstream Mines Ltd.
Notes to Financial Statements
For the Year Ended August 31, 2006 and 2005

1. Summary of significant accounting policies (cont'd)

Income taxes

The company provides for income taxes using the liability method of tax allocation. Under this method, future income tax assets and liabilities are determined based on deductible or taxable temporary differences between financial statement values and tax values of assets and liabilities using enacted income tax rates expected to be in effect for the year in which the differences are expected to reverse.

Stock based compensation

The Company accounts for stock-based compensation in accordance with CICA Handbook section 3870 "Stock-Based Compensation and Other Stock-Based Payments". This standard requires that stock-based payments to non-employees and direct awards of stock to employees and non-employees are accounted for using a fair-value method of accounting.

Flow-through shares

The Company will from time to time issue flow-through shares to finance a portion of its capital expenditure program. Pursuant to the terms of flow-through share agreements, the tax deductions associated with the expenditures are renounced to the subscribers. Accordingly, share capital will be reduced and a future tax liability will be recorded equal to the estimated amount of future income taxes payable by the Company as a result of the renunciations, when the renunciations are made.

Earnings per share

Basic income per share is computed using the weighted average number of common shares outstanding during the year. Diluted income per share is computed using the weighted average number of common and potential common shares outstanding during the year. Potential common shares consist of the incremental common shares issuable upon the exercise of stock options and warrants using the treasury stock method.

Oil and gas interests

The Company holds a 6.25% interest in a non-producing well in Canadian County, Oklahoma, U.S.A. with royalty interests not exceeding 25%. The well is recorded on the books of the Company at the nominal value of \$1.

Potter Mine, Ontario

The company holds 100% interest in the Potter Mine Property. An officer of the company controlling and directing the control block of shares in the company has divested his declared minority 10% interest in Harrison Mining and Engineering Corporation, the vendor of the property, but remains the sole director and chief executive officer of all of the companies within Harrison Group of Companies. The vendor retains a 2.5% net smelter return royalty on the property, which the company may purchase at any time for \$3,000,000. A \$1,600,000 promissory note was issued by the company to the vendor as part of the purchase consideration and remains outstanding to date.

On April 11, 2001, the company sold a 10% net profit interest royalty in and to the Potter Mine Tailings property for \$300,000 in cash. Net profits are determined quarterly and the final payment of net profits are due no later than 6 months after the end of the Project Operation's accounting year.

Millstream Mines Ltd.
Notes to Financial Statements
For the Year Ended August 31, 2006 and 2005

2. Mining claims and deferred exploration expenditures (cont'd)

Falconbridge Twp. Airport Property

On August 7, 2000 the company, as stated in its August 11, 2000 press release, negotiated to increase its purchase option agreement from a 50% interest to 100% interest in the Falconbridge Township Airport Property located in Ontario. The property consists of 45 mining claims. A payment of \$60,000 is to be made on or before the third anniversary date of this new agreement and an advance royalty payment of \$60,000 per year commencing November 1, 2000 is due up to the date when commercial production commences in lieu of further work commitments. The property now has a 3% net smelter return (NSR) royalty for which the company has the right to purchase two thirds (2/3 being 2%) for a payment of \$2,000,000 up to the date when commercial production commences.

In June 2003, the company entered into a participation and joint venture agreement with Crowflight Minerals Inc. In order for Crowflight Minerals Inc. to earn its 50% interest, it had to have a \$60,000 property payment and fund an initial \$325,000 exploration program. In December 2005 Crowflight Minerals Inc. elected to withdraw from further participation and relinquished all and any interest in the property. The company now retains a 100% undivided interest in these claims.

Falconbridge Twp. Airport East Property

On August 4, 2003, the company entered into purchase agreement with an individual for a 100% undivided interest consisting of 11 mining claims located in Falconbridge Township and 7 mining claims located in Street Township in Ontario. The property is contiguous to the Falconbridge Township Airport Property held by the company as disclosed above. The Company's purchase price is \$30,000 in cash and 600,000 common voting shares equally divided over 3 payment due dates of September 4, 2004; September 4, 2005 and July 5, 2006. All cash payments and share issues have been completed in accordance with the purchase agreement.

The individual retains a 2% net smelter return (NSR) royalty on all production from the property. The Company has the first right of refusal on the sale of the NSR royalty and the right to purchase 50% of the NSR royalty at a fixed price of \$1,000,000 at any time prior to the 4th month after commercial production has commenced.

Tamarack, Montana

Pursuant to a Memorandum of Understanding dated April 19, 1998, the company acquired a 50.5% undivided interest in the Tamarack property for \$161,500 US (\$231,089 CDN) The company has agreed to supply further funding for planned exploration and exploitation and shall be entitled to 80% of all revenues until funding provided by the company has been recaptured and 50.5% thereafter. The company continues to collect historical data of the property in addition to the exploration of the surface and the structural control (faults) to best establish drill targets. Management is of the opinion that the property potential is in finding a high-grade gold - low tonnage per day mine since the milling capacity is already on the site. Funding to advance the property towards production remains to be raised at this time.

Millstream Mines Ltd.
Notes to Financial Statements
For the Year Ended August 31, 2006 and 2005

2. Mining claims and deferred exploration expenditures (cont'd)

Koval Property, Ontario

On March 16, 2004, the Company entered in a three year Purchase Option agreement with an individual to purchase a 100% undivided interest in a prospective gold property. The Koval Property, located in the District of Thunder Bay Beckington Lake area in Ontario, consists of 3 contiguous Leased Mining Claim Units. The Company made an initial \$10,000 payment. Additionally, to maintain its option, the Company must issue to the individual, its common voting shares and cash payments as follows:

- 25,000 shares and a \$5,000 cash payment of September 16, 2004;
- 25,000 shares and a \$5,000 cash payment of March 16, 2005;
- 50,000 shares and a \$5,000 cash payment of March 16, 2006;
- a \$30,000 cash payment on or before March 17, 2007.

The individual retains a 1.5 net smelter return (NSR) royalty on all production from the Koval Property. The Company has a first right of refusal on the sale of the NSR royalty and the right to purchase 50% of the NSR royalty or any part thereof, including the right to purchase 50% of the NSR at a fixed price of \$500,000. Additional consideration includes an advance royalty payment of \$10,000 per year to maximum of \$100,000 commencing one day after the fourth anniversary of the Agreement, March 15, 2004, or until a production decision is taken, whichever comes first. Such advance royalty payments shall be credited towards future royalty calculations and payments.

The Company made the second cash payment of \$5,000 and issued 25,000 common shares in 2005 to the individual pursuant to the Purchase Option Agreement.

The cash payment and share issue due on or before March 16, 2006 was deferred until the 21 year lease agreement was approved by the Ministry of Northern Development and Mines. Subsequent to year end the lease agreement has been approved and the company is now required to make the cash payment and issue common shares pursuant to the Purchase Option Agreement.

Falcon Gold Property, Ontario

On September 10, 2003 the company and Crowflight Minerals Inc., represented as a joint venture, entered into a Participation and Joint Venture Agreement with Kinross Gold Corporation. Kinross granted the company a sole irrevocable option for 3 years to earn a 60% undivided interest in and to the Kinross's Falcon Gold Property. Upon execution of their agreement an initial cash payment of \$45,000 was made to Kinross Gold Corporation of which \$22,500 was reimbursed by the company during the year. To maintain the option, the company must make the following amount of exploration expenditures on behalf of the property:

- a) by the first anniversary date \$75,000
- b) by the third anniversary date \$400,000.

Following the earning by the company of it's 60% interest, each party is obligated to fund further expenditures in accordance with its held interest in the property.

The Company completed the \$75,000 in exploration expenditures.

For the Year Ended August 31, 2006 and 2005

3. Due to related parties

An officer of the company controlling and directing the controlling block of shares in the company is also the sole director and chief executive officer of the entities within The Harrison Group of Companies. In January 2006, the Harrison Group of Companies agreed to defer their then existing debt for a period of 12 months.

	2006	2005
The Harrison Group of Companies (a) Harrison Mining & Engineering Corp.	\$ 491,157	\$ 574,398
b) demand loan	1,274,763	1,274,763
c) promissory note (principal)	<u>1,600,000</u>	<u>1,600,000</u>
	3,365,920	3,449,161
Demand loan from related company	<u>50,264</u>	<u>-</u>
	<u>\$ 3,416,184</u>	<u>\$ 3,449,161</u>

- a) An officer of the company controlling and directing the control block of shares in the company has divested his declared minority 10% interest in Harrison Mining and Engineering Corporation but remains the sole director and chief executive office of the Harrison Group of Companies.
- b) In July 2003, Harrison Mining & Engineering Corp. agreed to defer its debt from the company for a period up to April 2007.
- c) This promissory note bears interest at the rate of the Toronto Dominion Bank prime plus 1% per annum, compounded annually, and due on April 3, 2000, provided that a commercial production decision has been announced on or before that date. In consideration of permitting Ernest Harrison to continue to actively control and be the driving force of the company, Harrison Mining & Engineering Corp. has waived the accumulated interest charges to date, and for a further period extending to April 3, 2007 at which time the repayment terms of this note will be revisited.

During the year, the company entered into a loan agreement in the amount of \$50,000 with 607638 Ontario Limited. A director and officer of 607638 Ontario Limited is also a director and officer of the company. The loan is payable at an interest rate of 6% compounded monthly. The interest and principal are repayable on demand.

Related party transactions

The Company capitalized \$39,056 (2005 - \$59,053) during the year for site and exploration services in the normal course of business, provided by related parties managed by the president of the company. These expenditures are recorded at the exchange amount agreed upon by the two related parties.

Expected income taxes (recovery)	(87,000)	(17,000)
Non-deductible items	54,000	-
Recognition of prior year's losses	(39,000)	-
Losses for which tax benefit has not been recorded	<u>-</u>	<u>17,000</u>
Future income tax recovery	<u>\$ (72,000)</u>	<u>\$ -</u>

The significant components of the company's future income taxes at August 31, 2006 are as follows:

	2006	2005
Future income tax assets		
Canadian exploration expense	\$ 758,000	\$ 648,000
Canadian development expense	1,680,000	1,642,000
Losses carried forward	484,000	588,000
Valuation allowance	<u>(2,922,000)</u>	<u>(2,878,000)</u>
Future income taxes	<u>\$ -</u>	<u>\$ -</u>

The Company has approximately \$1,341,000 of tax loss carryforwards which may be applied to reduce taxable income of future years. These losses expire as follows:

2007	\$ 210,000
2008	323,000
2009	182,000
2010	491,000
2012	47,000
2013	<u>88,000</u>
	<u>\$ 1,341,000</u>

The potential income tax benefit of these losses has not been recognized in these financial statements.

See accompanying notes

Millstream Mines Ltd.
Notes to Financial Statements
For the Year Ended August 31, 2006 and 2005

6. Basic and diluted earnings per share

The weighted-average number of common shares outstanding during the year was 43,096,765 - (2005 - 40,152,933).

7. Financial instruments

Fair value

For certain of the Company's financial instruments, including cash, accounts payable and accrued liabilities the carrying amounts approximate fair value due to their immediate or short-term maturity.

The fair value of the amounts due to related parties cannot be determined with any degree of certainty, as the commercial lending rate for a comparable loan cannot be determined.

Currency risk

The Company undertakes transactions in foreign currencies, and therefore is subject to gains and losses due to fluctuations in foreign currency exchange rates. The Company does not use derivative instruments to reduce its exposure to foreign exchange risk.

8. Contingent liability

A claim for general damages has been made by an individual and a related corporation in the amount of \$600,000. The plaintiffs allege the Company negligent misrepresentations to the plaintiffs at the time the plaintiffs provided \$300,000 to purchase a 10% net profit interest in the tailings from Potter Mine (Note 2a). The Company is defending the claim on the basis that no misrepresentations were made to the plaintiffs and that the individual, a former director, was aware of the Company's situation. The Company believes the plaintiffs have little chance of being successful as they have yet to take any significant action in these proceedings.

9. Subsequent events

In October 2006, the company negotiated a 50% ownership in the Uncle Sam Gold Mine, located in the southwestern part of the State of Montana, U.S.A. The company's interest is fully vested based on the consideration that it has completed a substantial amount of development work and exploration expenditures on the property in the past.

On November 29, 2006, the company listed and began trading on the Frankfurt Exchange under the symbol NJD.
