MILLSTREAM ADDS JOHN C. GINGERICH TO ADVISORY BOARD

Toronto, Ontario, Millstream Mines Ltd. (MLM-TSX-V; NJD- Frankfurt) is pleased to announce the appointment of Mr. John Gingerich, P. Geo., to its Advisory Board. Mr. Gingerich initially became involved with the Company as a consultant in the spring of 2003 and played a role in the development of the Gocad 3-D model of the Potter Deposit that has proved extremely useful as evidenced by our recently announced exploration successes. Through his role on the Advisory Board, Mr. Gingerich will assist the company in its various exploration efforts currently ongoing and into the future at its North American mineral properties.

John C. Gingerich, P. Geo. is a professional geoscientist (geophysicist - APGO) with over 25 years experience in the mining industry. A recognized leader within the mining community, he sits on number of industry and government boards and committees. These include the CAMIRO, Ontario Geological Survey Advisory Board, East Asia Minerals Corporation, Advanced Explorations Inc, and BacTech Mining Corporation. As a past technology leader within the Noranda group of companies, John has gained a broad range of practical experience in the application of geosciences in mapping the earth's surface.

The principle objective of Millstream Mines Ltd. is to enhance and develop known mineral properties to production potential. Millstream is currently focusing its exploration efforts on the Potter Property, located near Matheson, Ontario and the Tamarack Property located just outside of Sheridan, Montana.
